Request for Proposal 19 Road Corridor - J 2/10 Road to Highway 6 & 50 Contract for Consulting Environmental Services

ADDENDUM NO. 1

Date Issued: April 4, 2023
Question Deadline: April 6, 2023: 5:00 PM
Proposal Due: April 13, 2023: 5:00 PM
Location: Electronic Submittal to smartinez@fruita.org

This Addendum #1 is hereby issued to supplement the Request for Proposal with answers to questions received prior to the deadline.

We require an acknowledgement of this and any other addendums on your bid submittal before consideration.

Q: Does the study area depicted on page 17 of the RFP include both sides of 19 Road and J Road? If not - is it possible to delineate which sides of the roads are included throughout the corridor?

A: The study area will include both sides of 19 Road from J.2 Road South to Highway 6&50 and both sides of J Road starting 600' West of 19 Road, extending east thru the intersection of J and 19 Roads for 300'.

Q: Is the "Incidental Engineering" category in the CDOT Approved consultant list satisfactory for this project - or does it preclude us from doing the work?

A: As we have done in past projects, if your proposal demonstrates the capabilities to complete the necessary Environmental Studies required for the Land Acquisition process, and your firm is listed on the CDOT prequalified list, that is sufficient for consideration.

Q: The City requires that respondents be prequalified with the “EN Environmental Engineering” work code through CDOT. Unfortunately, the point of contact left the company, and we were unaware that our certifications expired. Will that automatically disqualify us from putting forth a proposal, or is it possible for us to work on obtaining that recertification during this proposal process?

A: **You can submit the proposal even while you are working to obtain updates to your certifications. We will require however, that the certifications are updated before a contract issued.**

This is the initial Addendum issued for the 19 Road Corridor Improvement project for Consulting Environmental Services . Subsequent Addenda may be issued if further clarifications are warranted based on questions received prior to the submittal deadline. This addendum does not change the deadline to submit Qualifications.
